Professional Summary

Gabe is a technology professional with over 20 years' experience translating cutting-edge technology into measurable business value. He serves as a trusted advisor to both customers and internal teams, driving successful outcomes in complex sales cycles. With a proven track record at companies such as DeepL, Wiz, and Puppet Labs, he brings deep expertise in AI, cybersecurity, and DevOps to every interaction. He is also a frequent speaker at conferences and meetups, a tech writer, and a publisher of iOS apps.

Recent Experience

DeepL

Nov 2024 - Present

Staff Solutions Consultant

Drive technical sales for AI-powered machine translation across the Americas. Deliver customized demonstrations and guide customers through proof-of-concept trials into successful onboarding and expansion. Respond rapidly to technical inquiries and competitive RFPs to accelerate deals.

Wiz

Jan 2022 - Mar 2024

Solutions Engineer

Enabled partners and account executives in the TOLA region by providing demos, technical support, and industry expertise. Led proof-of-value exercises and ensured technical wins throughout the sales cycle. Trained peers on topics such as shift-left security and incident response.

**Palo Alto Networks
Prisma Cloud**

Mar 2020 - Jan 2022

Cloud Security Systems Engineer

Drove technical sales for cloud security solutions across the TOLA region and SLED segment, qualifying leads and delivering demonstrations to secure technical wins. Led proof-of-value exercises to close successful deals and provided post-sale implementation support as needed.

Puppet Labs

Sep 2013 - Mar 2020

Principal Professional Services Engineer

Delivered professional services to enterprise customers with diverse technical backgrounds, from implementation through optimization. Trained new team members on Puppet deployment methodologies and developed training curricula. Drove early adoption of a new CI/CD product at launch.

**Sony Computer
Entertainment**

May 2008 - Sep 2013

Staff Systems Engineer

Maintained critical infrastructure for first-party game development studios, ensuring reliable CI/CD pipelines and seamless hardware/software integration. Supported early pre-launch PS4 development kit rollout. Mentored new team members and trained peers on emerging technology.

Intercasting Corp

Dec 2006 - May 2008

Senior System Administrator

Managed physical infrastructure and software systems to support a mobile social network. Collaborated with development teams to optimize operational stability and provided guidance on production impact of design decisions.
